Q8 Total number of clients served through this grant funding:

12,000

Q9 Describe the project's key outcomes and results based on the goals and objectives. Use the following format: State the Goal: State Objective 1: Describe the Activities, Results and Outcomes for Objective 1: State Objective 2 (if applicable): Describe the Activities, Results and Outcomes for Objective 2: State Objective 3 (if applicable): Describe the Activities, Results and Outcomes for Objective 3:

- Improve the integrity of assistance provided to clients by increasing fresh, nutritious food available to Food Bank Partner Programs. Close to 40% of the food we distributed this fiscal year was fresh produce thanks to grants like this one. We are on track to distribute nearly 30 million pounds of food by the end of this fiscal year on June 30. .
 - Expand clients' knowledge of and experience with fresh produce by providing recipes educating them in varied ways to prepare the fresh food distributed to them.
 - Provide fresh produce to families, so children can enjoy healthy food and also see their parents following good eating habits, both of which will help build future healthy eating habits.
-

Q10 Please describe any challenges/obstacles the organization encountered (if any) in attaining goals & objectives.

No real challenges during the grant period.

Q11 How did you overcome and/or address the challenges and obstacles?

N/A

Q12 Describe any unintended positive outcomes as a result of the efforts supported by this grant.

We encountered no unintended positive outcomes as a result of this grant. We were however able to get a really good deal on the produce we purchased, so grant money was able to go a lot farther.

Q13 Briefly describe the impact this grant has had on the organization and community served.

1 in 4 children in eastern Oklahoma is food-insecure. The need is high and we know that many children are not getting the nutrition they need to grow at home. Thanks to this grant, the Food Bank distributed 90,000 more pounds of fresh produce. Overall, the Food Bank distributed 20% more food to the hungry this fiscal year than last fiscal year. With the Gimbel grant, our produce distribution percentage is at close to 40% of our total distribution.

Page 3: Budget

Q14 Please provide a budget expenditure report of the approved line items. Include a brief narrative on how the funds were used to fulfill grant objectives.

All funds were used to acquire produce to distribute to food-insecure client families.
With the \$10,000 we bought 2.25 trailer loads of citrus fruits.
½ load = 20,000 pounds and costs \$2,205
2.25 loads = 90,000 pounds at a cost of \$9,922.50. The remaining \$77.50 was applied to more produce.

Page 4: Success Stories

Q15 Please relate a success story:

Guadalupe, her husband and two children live together with her sister-in-law and her three children, bringing their household total to 8.

Guadalupe regularly participates in the Free Family Farmers' Market program. She reported, "I am not comfortable wasting food, so, after bringing the produce home, I make sure to serve it to my family." Over time, she and the other members of her household have learned to like many fruits and vegetables they previously did not eat. This process has led to Guadalupe making healthier food choices for her family.

In addition to the fresh food provided by the Food Bank, the family attends nutrition and cooking classes at the children's school. "My 5-year old son used to only eat pizza," Guadalupe said. "The nutrition class taught me a lot about eating healthy, and I have made many changes in the food I serve my family. Now my son is not craving pizza anymore. He eats other types of food and the food he eats is healthy. He has made a lot of progress. His stomach feels better."
