2014 S.L. Gimbel Foundation Fund APPLICATION – Narrative

I. Organization Background; Target Population:

A) History, mission and/or purpose; how long has the organization been providing services?

The mission of Bright Prospect is to empower high-potential, low-income students to gain admission to, succeed in, and graduate from four-year colleges and universities. The program has been providing services since 2002.

B) What are some of your past organizational accomplishments (last three years)?

- Since its inception in 2002, Bright has grown from serving 12 students to over 1,800 high school and college students at the beginning of the 2014-15 academic year
- Our current college graduation rate is 91%
- We have added four new program coordinators, two working with the high school program and two with the college program, during the last two fiscal years, all Bright Prospect alumni
- In accordance with Bright Prospect's vision of making our Crews® model replicable, we have developed both an implementation plan and a business model for use by organizations interested in adopting our model, adaptable according to an organization's size and geographic location
- Subsequent to the first in 2012, Bright Prospect commissioned a second evaluation of the program, this one focusing on Bright Prospect's unique culture, in preparation for making our model replicable. The final draft is currently being reviewed.

C) Key programs and activities? Description of communities you serve.

Bright Prospect provides students with a comprehensive counseling and support system throughout their high school and college years, beginning with high school sophomores. Activities include participation in a peer support "crew," part of our Crews® model; structured Crews® events; twice-monthly lunchtime meetings and after-school leadership training sessions at each school we serve; parent meetings; college and financial aid application guidance; preparation for the college experience for both students and parents; and support while in college, through graduation. The program works with low-income high school and college students, ages 14 to 26, from the cities of Pomona, Montclair and Ontario. Their ethnic breakdown is 86% Hispanic/Latino, 8% Asian/Pacific Islander, 3% Black/African American, 2% White/Caucasian, and 1% Other; 68% are female and 32% are male. Of our students still attending high school, 80% are the first generation in their families to attend college; 88% receive free or reduced-cost lunch, signifying that they live below the poverty line; and 56% have a language other than English as their primary language.

II. Project Information:

A) Statement of Need

1. Specify the community need you want to address and are seeking funds for.

According to the U. S. Census Bureau's American Community Survey one-year data estimates for 2013, 81% of San Bernardino County residents over the age of 25 do not have a bachelor's degree. In high schools in Bright Prospect's service area, dedicated but overworked counselors serving caseloads of over 800 students are tasked with focusing on drop-out prevention to fortify their high schools' graduation rates. Counselors have virtually no time to provide college guidance to students with the potential to succeed, and parents, who did not go to college themselves, also lack the information to help their children. One of the challenges Bright Prospect students constantly face, because of their families' financial situations, is figuring out how they will pay for college. All our students are dependent on financial aid packages provided

by the colleges and universities to which they commit to attend, which often leave a gap, hence the need for scholarships.

B) Project Goal, Objectives and Methodology

1. Project goal/description; how community need is met; how unique and innovative?

The aim of Bright Prospect is to break the cycle of poverty in our community by dramatically increasing college-going and graduation rates. By awarding scholarships to our students, the program intends to provide an additional level of support that helps students to stay focused on their academic goals and worry less about how they will pay for college. Initially, Bright Prospect awards scholarships to our college students based on their unmet need; after the first round, we then award loan reduction scholarships. By making sure that our students' financial needs are met to the greatest extent possible, we are ensuring that they have a better chance of continuing their coursework and persisting through to college graduation, then obtaining adequate-paying employment after graduation. Our program is unique in that it offers emotional, academic, and financial support, as needed, all the way through our students' college years.

2. State up to three objectives and the activities undertaken to meet each objective.

Objective: With the assistance of this scholarship funding, approximately 16 students will complete their academic year of college in good standing, and those who are in their senior year will graduate at the end of the academic year. *Activities:* In the summer, students apply to Bright Prospect for scholarships, providing their budget, including direct and indirect college expenses; the financial aid package from their college; and FAFSA's determination of their family's expected contribution. Scholarships are awarded based on our staff's determination of students' unmet need. After the first round, if funding is still available, we award loan reduction scholarships to those whose loan amounts are highest. We will select approximately 16 students who have attended San Bernardino County high schools and award them scholarships (amount will vary based on need; average award approximately \$1,560). We are in communication with our students throughout the academic year to monitor their progress. At the end of the year, we will report on each scholarship recipient's academic status and accomplishments.

3. Who will this grant serve?

A \$25,000 grant from the S. L. Gimbel Foundation Fund will enable us to award approximately 16 scholarships, averaging \$1,560. The scholarships will be awarded to Bright Prospect college students, freshmen to seniors, from low-income families who attended high school in San Bernardino County, primarily Montclair or Ontario High Schools.

4. Other existing projects in the community; community partners; utilizing volunteers.

To the best of our knowledge, no other organizations or services in our immediate area are able to offer the same types or quality of services, to the same groups of students, for the same length of time, as Bright Prospect, although students can be referred to certain organizations or services such as AVID or Upward Bound regarding certain issues. Our local partners include several of the Claremont Colleges, Western University of Health Sciences, Cal Poly Pomona, Uncommon Good, Boys and Girls Club of Pomona Valley, AVID, HMC Architects, Technip (engineering company), Pomona Valley Hospital Medical Center, Fairplex, Inter Valley Health Plan, and Tri-City Wellness Center. Our older students volunteer to help with program activities for our younger students. Each summer, many older high school and college students help conduct the Summer Academies for rising high school sophomores, while a number of college students speak to and with high school students at multiple functions, such as the "Old-New" Reunion, that we organize throughout the year.
