Holiday Grant Application

XXXII. Organization/Agency Background: State your mission, vision, purpose, and provide a brief history. What are your core programs and activities? How many people do you serve? How many paid staff, full time and part-time? How many volunteers?

Missoula Food Bank's mission is to lead the movement to end hunger in our community through activism, volunteerism, and healthy food for all.

Our core programs are direct food assistance programs for families, children, and seniors. The Store, MFB's choice model food pantry, served 21,021 unduplicated people in 2016 - or 1 in 6 people in Missoula County - for a total of 84,000 services. Families may visit the Store two times per calendar month for emergency food supplies that include nonperishable pantry staples like peanut butter, soup, canned vegetables, cereal, and fresh produce that is sourced through a robust grocery rescue program.

Other activities include a weekend nutrition program providing healthy foods to more than 1,000 children each weekend; a summer and after school meal program at 22 of Missoula County's highest need sites; and a home delivery program for 550 seniors aging in poverty. We also operate two satellite pantries in rural communities.

In 2016, MFB was only able to keep pace with need in our community with the help of 3,250 different volunteers who donated 30,000 hours of service. We have a paid staff of 12.5 FTEs and a volunteer board of directors of 11.

II. Project Information: Describe your food distribution program. Explain the community need including demographics, geographic characteristics of the area or community to be served, community conditions and income level. What are the specific activities of the food program? How do you identify/qualify those in need? How often is the food distribution offered? How many people will be served by the food distribution program (children, youth, adults, seniors)? Please explain how you keep track of number of people served.

Missoula Food Bank's Store program is a choice-model, emergency food pantry where families can access a 5-7 day supply of food for every person in the household up to two times per calendar month.

In 2016, our Store served 21,021 unduplicated people, or 1 in 6 of the 116,000 people who live in Missoula County. The store provided a total of 81,000 duplicated services last year. Of our 21,021 customers, 35% are children, 16% are seniors, and many are living with long-term disabilities. 12% of customer households have a Veteran in the home. 99% of households visiting MFB are within the low to very-low income brackets as determined by the US HUD office, and households spend an average of 65% of their monthly income on rent (with HUD's definition of "affordable" comprising 33% of a household's budget).

Every time a family visits our food bank, they provide information about household size, income, housing situation, and other demographic data. MFB aggregates this information in a robust database, and is able to keep high quality statistics regarding the use of our services and trends in our community.

In mid-2017, our food bank moved to a new facility, reducing barriers to services for many in our community experiencing hunger. Since our relocation, our we have experienced a marked increase in services. For example, in October 2016, we provided 6,400 services from our pantry. In October 2017, we provided 8,600. This pronounced increase in food access through our program has put intense pressure on our food inventory and staff.

For this reason, MFB is requesting this \$10,000 food purchase grant to provide a variety of hearty canned soups for families using our services. This grant will purchase 20,016 19 oz. cans of soup, which will help more than 10,000 unduplicated people.

**2017 S.L. Gimbel Foundation Fund
Holiday Grant Application**

III. Project Budget

Please provide a detailed line-item budget for your project by completing the budget form below. The maximum amount requested is \$10,000. One hundred percent of the request should be for the purchase of food items only. Canned tuna will not be funded. Food items must be delineated (i.e. canned vegetables, soup, pasta, dried beans, rice, etc.). For each food item, indicate the cost per unit (pound, carton, case, etc.) and the quantity.

Line Item	Line Item Description	Requested Amount
Variety of Hearty Canned Soups	834 cases (20,016 19 oz. cans) @ \$12.00 per case	10,000.00
TOTAL:		10,000.00

IV. Administrative Expenses Percentage

This section calculates how much the organization spent for general management, overhead, indirect items as a percentage of the organization's total expenses. The figures are based on your most current 990 form that you submitted, Part IX Statement of Functional Expenses.

Management & general expenses (Column C only)	/Total expenses (Column A)	= Administrative Percentage
198,468.00	3,784,343.00	5.2%

Part IX Statement of Functional Expenses

Section 501(c)(3) and 501(c)(4) organizations must complete all columns. All other organizations must complete column (A).

Check if Schedule O contains a response or note to any line in this Part IX ☐

Do not include amounts reported on lines 6b, 7b, 8b, 9b, and 10b of Part VIII.	(A) Total expenses	(B) Program service expenses	(C) Management and general expenses	(D) Fundraising expenses
1 Grants and other assistance to domestic organizations and domestic governments. See Part IV, line 21	50.	50.		
2 Grants and other assistance to domestic individuals. See Part IV, line 22	2,928,964.	2,928,964.

S. L. Gimbel Foundation Holiday Food Grant

Q11 Please describe any challenges/obstacles the organization encountered (if any) in attaining stated goals & Objectives.

This program year, MFB increased enrollment in EmPower Pack from 512 children in the 2015-2016 school year to 750 in the 2016-2017 school year. This expanded reach addressed need identified by our schools and community partners, getting necessary food to more children who were experiencing hunger over the weekends. The expansion, however, did cause some unforeseen challenges.

One challenge of this expansion was funding. The increase of 238 children meant the addition of 9,520 packs over the program year. In our budget, we accounted for \$4.00 per pack; however, fluctuating costs of some menu items, namely cereal, created unexpected funding gaps.

Additionally, our storage capacity for the increased number of packs we needed throughout the school year was a barrier. MFB hosts monthly "build" events, at which nonperishable items for EmPower Packs are packaged into bags by volunteers in an assembly line. For these build events, we must pre purchase inventory, but also have enough space to store the EmPower Packs before they are distributed weekly to the schools. With the increase in enrollment in EmPower Pack, coupled with the increased inventory needs for Missoula Food Bank's Store (emergency food pantry), which is also experiencing unfortunate growth in need, we were often limited in the space we needed to keep the product on hand before delivering to schools and ultimately to kids and families.

Q12 How did you overcome and/or address the challenges and obstacles?

Funding gaps were addressed through help from foundations and individual donors; for example, the S.L. Gimbel Holiday Grant provided funding for milk, which helped to diffuse the burden of other menu items in the last half of the program year. We were grateful and fortunate to receive the supported needed to maintain enrollment at 750 children for the entire program year.

Regarding space, on May 30, 2017, Missoula Food Bank opened our doors at a new facility, completing a long and challenging relocation process. Our new facility, located at 1720 Wyoming Street in Missoula, has expanded service space and expanded storage capacities. With more room, we are able to better meet the needs of our community. In EmPower Pack, we are able to better pre-purchase, package, and store food prior to delivery to the schools. Because we now have more space for storage, we can employ bulk purchasing strategies that allow us to make better use of funding, and reduce the price per service. Our relocation has made a number of programs more accessible and better able to meet the food needs of those struggling with hunger in Missoula County.

Q13 Describe any unintended positive outcomes as a result of the efforts supported by this grant.

One unanticipated outcome of this grant is the bridges that EmPower Pack builds for families. MFB often includes referral information for programs like WIC, scholarship opportunities for schools out day camps, and nutrition education for families. In March 2017, a Spring Break camp from one of our partners, spectrUM Discovery Area, was filled with 75% EmPower kids on scholarship. This science camp has a historically low participation by children in low-income homes because of cost, and although the program provides scholarships, families often did not pursue them because of lack of awareness.

Additionally, as part of this school year's expansion, MFB was able to serve children in Lolo Elementary School, located in a rural community in Missoula County but outside the City of Missoula. Lolo is a high-need area, where 100 children receive EmPower Pack assistance each week. Because of MFB's relationship through EmPower Pack, we were able to partner with the school to establish Lolo's first open summer meal site this year. The program consistently served more than 50 children each day, providing lunches that kids would normally receive through the Federal Free/Reduced Lunch program during the school year. Because of EmPower Pack, we were able to continue to meet nutritional needs of children in a rural area where access to food is challenging.

S. L. Gimbel Foundation Holiday Food Grant

Q18 Please relate a success story here:

Received from a teacher:

I recently gave a n Empower pack to a student I suspected was struggling with food security at home. He came to me the following Monday and expressed such genuine gratitude for the food and explained how hard times were financially for his family. Without the Empower packs handy, ready to go, and free of charge to our school...I may have missed the opportunity to lighten his family's load a bit.

S. L. Gimbel Foundation Holiday Food Grant

Q12 How did you overcome and/or address the challenges and obstacles?

It is exciting to note that in May of 2015, Missoula Food Bank closed on a piece of property located at 207 North Catlin Street. This site used to host a salvage yard and auto-repair business. Because of surface soil contamination, the site faced multiple barriers to redevelopment, and was likely to sit vacant and unused for an extended period of time.

Because of MFB's non-profit status, and with the support of the City of Missoula, our local food bank will be able to clean up this piece of property, adding value to a low-income neighborhood, and relocating to an area of Missoula that will increase ease of access for our clients. The lot allows for a much larger facility, giving us room to provide service the dignity and respect our neighbors deserve. It also allows for a larger facility in which to address causal issues of hunger within our client base. Planned classroom space for cooking and nutrition classes, expanded shared space for partnerships like healthcare providers and WIC and SNAP case workers, and meeting space for support groups and job fairs are a few of the spaces that will open opportunities to decreasing need in our community.

MFB will be launch a capital campaign in the next 60 days to raise needed funding to build our new home. Support for programs provided by friends such as the S. L. Gimbel Foundation will be of the utmost importance as it is expected that our operating fundraising efforts will be impacted by the capital campaign.

Q13 Describe any unintended positive outcomes as a result of the efforts supported by this grant.

In 2013, Missoula Food Bank conducted a nutrition survey, asking our clients if they could receive more of one item available at the food bank, which would be most helpful to their household. Resoundingly, families replied milk or meat.

As result of this survey and because of the continued support of the S.L. Gimbel Foundation, Missoula Food Bank has increased the amount of milk received by larger households. Our capacities used to limit the amount of milk that we were able to provide to each household to a half gallon. MFB is now leveraging the funds granted by the Foundation with other sources to provide households of three or more with additional milk each visit. We have received much positive feedback as result of this shift, and we are grateful to be serving families in a way that increases the impact of our services.

Q14 Briefly describe the impact this grant has had on your organization.

The positive impacts of this grant are multi-fold.

Your help results in a profound and just impact for every family who receives a gallon of milk from our food bank. The peace of mind that a mother feels when she doesn't have to send her child to bed hungry again is unquantifiable, and we are grateful for the long-time support of the S. L. Gimbel Foundation at our food bank, and at others, to make this a reality in so many homes.

As noted, Missoula Food Bank is able to leverage funds from the Gimbel Foundation to secure additional resources for our local food bank.

Thank you for your ongoing support.

S. L. Gimbel Foundation Holiday Food Grant

Q14 Briefly describe the impact this grant has had on your organization.

Missoula Food Bank offers our community a "choice system", a grocery store environment in which clients can select their own food. It is extremely important for our organization to be able to offer healthy choices, especially in light of the vulnerable populations of folks who need our services, particularly our seniors and kids.

Missoula Food Bank's Daily Dairy program is important in reaching the nutritionally balanced calorie load that we work to provide each client who comes through our doors. It is of particular importance, though, to at-risk demographics. Milk is rich in calcium, protein and essential vitamins, nutrients which are vital to the healthy development of young and growing children. Kids who grow up in food insecure homes are often times undernourished and do not consume the recommended amounts of important nutrients. Low-income households face the challenges of our food system, where calorie dense foods are much more affordable than nutrient rich, fresh foods. This affordability gap often results in children from food insecure homes living on processed foods that cannot provide the nutrition needed to develop in the most healthful ways. Other natural sources of calcium like kale and broccoli are seldom affordable for low income families. As 33% of Missoula Food Bank's clients are children, Daily Dairy helps kids in our community get the calcium they need to grow up with healthy teeth and bones.

Seniors are also at particular risk when considering calcium and protein. In 2012, Missoula Food Bank experienced a 15.9% increase in the number of services provided to low-income clients over the age of 55 over services provided in 2011. That level of service was maintained in 2013, providing 5,688 first visits to those over the age of 55. More of our aging population is living on a limited income. Providing milk and other rich sources of calcium to households of aging adults delivers healthy calories and other vital nutrients which help keep seniors strong and over time can help to prevent bone loss.

Page 3: Budget

Q15 Please provide a brief narrative on how the funds were used to fulfill grant objectives. Support documents (receipts or expense reports) can be emailed to klampert@thecommunityfoundation.net or faxed to 951-684-1911.

The total amount of the \$10,000 awarded grant was spent on food purchase, particularly our daily dairy program, i.e., milk, yogurt, cheese, and butter. During the grant period, 15,955 people (duplicated) were served through our store operations. This total included 5,356 children under the age of 17 years, and 1,864 seniors. A financial summary of expenditures during the grant period will be forwarded via email to Karen Lampert as per Question # 15 requirements.

Page 4: Success Stories

Q16 Please relate a success story:

During a conversation with a client, a 33 year old mother of two, staff learned that when she runs out of milk and dairy for her children, she often has to try to make milk from other foods such as almonds and soy. She is grateful that Missoula Food Bank always carries milk that provides her children with the calcium and vitamin D they need in order to develop strong skeletal systems. Because of very limited income, their household often runs short on groceries. She does what she can to ensure her children have adequate nutrition but feels that due to her current circumstances she would be unable to do so without the services of the Food Bank.

► Missoula Food Bank, Inc.
401 West Railroad, 219 S. 3rd Street West
Missoula, MT 59801

Dear Applicant:

Based on information supplied, and assuming your operations will be as stated in your application for recognition of exemption, we have determined you are exempt from Federal income tax under section 501(c)(3) of the Internal Revenue Code.

We have further determined that you are not a private foundation within the meaning of section 509(a) of the Code, because you are an organization described in section 509(a)(1) & 170(b)(1)(A)(vi).

If your sources of support, or your purposes, character, or method of operation change, please let us know so we can consider the effect of the change on your exempt status and foundation status. Also, you should inform us of all changes in your name or address.

As of January 1, 1984, you are liable for taxes under the Federal Insurance Contributions Act (social security taxes) on remuneration of \$100 or more you pay to each of your employees during a calendar year. You are not liable for the tax imposed under the Federal Unemployment Tax Act (FUTA).

Since you are not a private foundation, you are not subject to the excise taxes under Chapter 42 of the Code. However, you are not automatically exempt from other Federal excise taxes. If you have any questions about excise, employment, or other Federal taxes, please let us know.

Donors may deduct contributions to you as provided in section 170 of the Code. Bequests, legacies, devises, transfers, or gifts to you or for your use are deductible for Federal estate and gift tax purposes if they meet the applicable provisions of sections 2055, 2106, and 2522 of the Code.

The box checked in the heading of this letter shows whether you must file Form 990, Return of Organization Exempt from Income Tax. If Yes is checked, you are required to file Form 990 only if your gross receipts each year are normally more than \$25,000. If a return is required, it must be filed by the 15th day of the fifth month after the end of your annual accounting period. The law imposes a penalty of \$10 a day, up to a maximum of \$5,000, when a return is filed late, unless there is reasonable cause for the delay.
